## 8AM Weather Update Sunday Feb 8, 2009

**Synopsis:** The low pressure system that produced all the rain over the past couple of days has finally moved east of here. There will still be a threat for a few lingering showers this morning, but conditions should dry out this afternoon under partly cloudy skies. Temps will remain cool today with a high in the lower 60s and west/southwest winds increasing to 8-15mph. Another low pressure system is forecast to bring heavy rain and gusty winds to the area again on Monday.
