

Zurich Classic of New Orleans

7AM Weather Update Thursday April 23, 2009

Synopsis: Mostly sunny, warm, and humid today with an afternoon high in the mid 80s. South winds at 5-10mph this morning are forecast to increase to 10-20mph by this afternoon. High pressure will continue to influence the weather across the state through the weekend resulting in warm and humid conditions. Precipitation chances will be kept to a minimum, although a stray shower can not be entirely ruled due to the high moisture content in the air. Breezy conditions are also forecast on Friday and Saturday with winds gusting to 25mph at times.
