

### SUNDAY, JUNE 15, 2014 – 5 AM WEATHER FORECAST

A beautifully clear sunrise to start this morning may give way to a batch of low clouds and light haze/fog moving in from the east around 8 AM. As the sun gets higher in the sky, look for any of those low clouds near Pinehurst to transition back to mostly sunny skies mid-late morning. Sunshine this afternoon will mix with a few fair weather shade clouds again, but there should be less than yesterday afternoon. After a comfortable start, temperatures will warm back into the upper half of the 80s this afternoon. Light northeast winds early this morning will become mainly an easterly breeze for most of the day, occasionally turning to come out of the southeast later in the day. Low clouds and fog are a bit more possible tonight, otherwise expect hazy, hot and humid conditions on Monday as our winds become more southerly.
