| Weather | Light showers possible | Scattered showers and breezy | Showers likely and breezy | Rain Likely and windy | Rain and windy/ Isolated t-storms | Rain and windy |
| Rain Chance % | 30% | 40% | 60% | 70% | 90% | 70% |
| Temp (F) | 58F | 58F | 59F | 60F | 59F | 57F |
| Winds (mph) | SW 10-15 | SSW 10-15 G20 | SSW 15-20 G30 | SW 15-25 G35 | WSW 25-35G45 | W 25-35 G50 |

Today – A strengthening low pressure system will drag a cold front across Southern California this afternoon, bringing some heavy rain at times and strong winds. Looks like light showers will be possibly this morning and become more numerous as we reach midday into the early afternoon. The winds will slowly increase through day with gusts likely reaching 45-50 mph mid to late afternoon

Sunrise: 646am
Sunset: 518pm

| Day | Mon |
|---------------|-------------------------|
| Sky | |
| Weather | Partly cloudy and windy |
| Rain Chance % | 10% |
| Low/High (F) | 53/57 |
| Winds (mph) | W-NW 15-25 G40 |

Extended forecast – Partly cloudy, windy and cool conditions can be expected on Monday with temperatures likely holding in the 50's through the day. Gusty winds of 15-25 G 45 mph in the morning will slowly decrease as we go through the afternoon. Sunny skies and milder temperatures can be expected Tuesday and Wednesday.
