

Q. Bernhard, pretty good finish today; birdied four of the last five, was it?

BERNHARD LANGER: Yes, it was, yeah. I needed to. I fell asleep or kind of lost the momentum there. Not birdieing 10 was a bummer and then bogeying 12 wasn't much fun, so I was hoping to finish strong and I did. I had a good start, front nine was good, and I had a bit of a lull in the middle but then put it all together then at the end.

Q. What happened there in those couple holes you talked about?

BERNHARD LANGER: Well, 10 I pulled my tee shot a little bit and it just rolled in the rough so I couldn't reach the green. Lost 20 yards and had to lay up. Actually hit a great third shot in with my wedge but missed about a five-foot putt. And that was really the story today, I didn't putt quite as good as yesterday. Yesterday I putted really well, but today I probably left a couple out there. I was happy to make a couple of putts coming home. I had a really good chance. The other hole I didn't birdie, 16, I had a short putt there, too, for birdie but didn't make a good stroke.

Q. Probably play with Fred tomorrow. You guys have a long history playing with each other on this tour as well as on the PGA Tour.

BERNHARD LANGER: Yeah, always fun playing with Fred. We need him more out here. He's a great guy, and when he's hot, he's tough to beat. So looking forward to taking him on, but there's a whole bunch of other guys that are still in it, too.

Q. The course has been pretty much there for the taking, I think, with no wind per se the last couple days.

BERNHARD LANGER: Yeah, this course is one of the easier ones we play. Good thing we have it early in the year, too, get away with a couple awkward shots. But it can get you. Like John Daly didn't play that bad, but he really got punished, made three or four bad swings and caught a double bogey just about every time. That lava creeps in in a bunch of places and a couple of water hazards, too, but in general it's easy and it's in great shape. The greens are fairly flat, not huge breaks so you can make some putts. A lot of short irons, you can knock them somewhere close. Par 5s are reachable, most of them, so all that is good for low scores.
