Today – The morning hours should remain quiet, however an isolated shower/T-storm can't be completely ruled out. The threat for T-storms should increase significantly, especially between 1-5pm. Gusty winds could accompany this activity. Warm and humid conditions remain in place today with a high around 90 degrees. Southwest winds should gust 20-25 mph at times.

Extended Forecast – A much cooler and less humid airmass will spread across the region to end the week with temperatures in the 70s. Some drizzle is possible Thursday morning, otherwise dry conditions can be expected. Warm and humid conditions return for the weekend along with the threat for T-storms. Overall coverage should remain isolated to widely scattered both Saturday and Sunday. Temperatures will climb into the middle 80s with southerly winds.
