Today – Hot and humid, with a high in the upper 80s. The heat index will top out in the middle 90s. A few showers may stream in from the ocean this morning, with the risk a few thunderstorms along the sea breeze through the early afternoon. Behind the sea breeze, a low risk for ocean showers and isolated storms will continue through the evening.

Extended forecast – Widely scattered shower and thunderstorm chances will be driven by sea breeze and outflow boundaries this weekend. The highest precipitation chances are forecast during the morning and early afternoon hours before the sea breeze pushes inland of Atlantic Beach. After the sea breeze moves inland, only isolated thunderstorm chances will remain, with the potential for outflow boundaries from inland thunderstorms or isolated ocean showers moving onshore. Temperatures will top out in the upper 80s, with a heat index in the middle 90s. Winds will be east-northeasterly.
