Winds (mph)	Light & Variable	SE 3-6	SE 4-8	SE 5-10	SE 5-10	SE 4-8

Today – A very tropical airmass will be in place today as the remnants of Alberto lift northward. A few showers are possible this morning, otherwise areas of showers/T-storms are expected to increase in coverage this afternoon. Heavy rain is possible with this activity as rainfall amounts could exceed 1 inch. Light southeast winds are expected throughout the day with a high in the lower 80s.

Rain Chance %	20% → 70%	20% → 50%	10% → 40%	20%	20%
Low/High (F)	71/84	72/86	73/89	73/91	72/90
Winds (mph)	S 5-10	S/SW 7-14 G18	SW 7-14 G18	W 7-14 G20	W/NW 7-14 G20

Extended Forecast – Deep, tropical moisture remains in place Wednesday and Thursday with additional showers and T-storms expected. This activity will mainly occur during the afternoon hours. Torrential downpours could occur. Somewhat drier air should finally work into the area Friday and this weekend which should limit the coverage of showers/T-storms. In fact, most of this weekend could remain dry. Temperatures will slowly warm towards 90 degrees by this weekend.
