8AM Weather Forecast

Sunday, May 20, 2018

Time	9am	11am	1pm	3pm	5pm	7pm
Sky						
Weather	Showers/ t-storms likely	Chance of showers/ t-storms	Showers/ t-storms likely	Showers/ t-storms likely	Chance of t-storms	Mostly cloudy
Rain Chance %	60%	40%	60%	60%	30%	20%
Temp (F)	77	79	76	79	80	79
Winds (mph)	SSE 5-10	WNW 10	SE 10	SE 6-12	SE 6-12	E 5-10

Today – A line of rain and t-storms will be moving through Dallas over the next few hours with gusty winds, heavy downpours and lightning. Additional storms could redevelop by early afternoon with the heating of the day along old out flow boundaries from overnight storms. Conditions should improve later this afternoon into the evening as all of the activity moves south and east for Dallas.

Sunrise: 625am
Sunset: 822pm

Day	Mon				
Sky					
Weather	Chance of PM T-storms				
Rain Chance %	30%				
Low/High (F)	69/88				
Winds (mph)	S-SE 5-10				

Extended forecast – A moist and unstable atmosphere will remain over North Texas on Monday. Any leftover boundaries from today's storms could be a focus for scattered showers and t-storms developing during the afternoon. Otherwise, mostly cloudy skies Monday morning will become partly cloudy during the afternoon..

Forecast prepared by DTN meteorologist Stewart Williams.
