Today – High pressure will build over the region today providing mostly sunny skies and hot temperatures. Highs should reach the upper 80's to near 90 degrees this afternoon. Can't rule out an isolated shower or t-storm, but most locations will remain rain free. Winds will remain light out of the WSW as well.

Extended forecast – Partly cloudy skies and hot temperatures will continue on Sunday with highs in the low 90's. A weak disturbance may get close enough Sunday afternoon to produce an isolated shower or t-storm. But most locations should remain rain free through Monday. Chances for showers and t-storms will increase by Tuesday as a cold front approaches the state from the west.
