

ROUND 2 INTERVIEW
August 4, 2018

GLEN DAY (-13)

Q. So 65 following up your 66 yesterday, 13 under.

GLEN DAY: You know, as a group, we didn't get off to a good start. We were just making pars, it was real flat, nothing really going on. I made a putt on the par 5 on the front and then I hit a good shot on 8, the par 3, and shot a couple under on the front, which was going backwards. Got to the back nine and just played solid. Played solid on the back nine yesterday and made a couple of putts and it just turned out what it was, 7. But it's so far behind. I mean, so far behind Kenny, it's not even funny.

Q. Only three, and that's a good follow-up. What's it going to take to catch him tomorrow?

GLEN DAY: Well, obviously it's his tournament to win. You know, for me to catch him, I'm going to have to shoot probably better than 65 and he's going to have an off day. He's going to have to not make some putts. If he makes some putts and gets off to good start, you know, I don't think anybody can catch him.

Q. I don't recall off the top of my head your round today, did you have any bogeys?

GLEN DAY: No, no bogeys. I had two bogeys yesterday.

Q. Bogey-free today?

GLEN DAY: Yeah, bogey-free today.

Q. And if I recall, in 2016 your opening round you shot bogey-free 65?

GLEN DAY: I have no idea. I'll agree with you.

Q. I looked at the book. So you're certainly capable of posting low?

GLEN DAY: Yeah, I don't know why. This course really should not set up for me at all. I play better on tight golf courses where the score's not way under par. For some reason I played good here every time I played. So we'll go out tomorrow and we'll see what happens, we'll give it our best shot anyway.

Q. Lehman was talking earlier, there were a couple of more difficult holes that were playing into the teeth of the wind. Did you find some of the holes were a little more of a challenge today?

GLEN DAY: Yeah. Well, No. 11 today I had to hit 4-iron into. No. 10, I just made a horrible tee shot because it was dead into the wind. You know, 9, I had to hit -- I killed a driver and killed a 4-iron and didn't come close to the pin. So yeah, there was -- the wind kind of picked up. When it picked up, it seems like we were into and playing the harder holes.
