

BRANDT JOBE (-5)

BRANDT JOBE: I just missed a four-footer on the last hole.

Q. Overall, still a really good day for you?

BRANDT JOBE: Better, better, better.

Q. What parts of your game were clicking today?

BRANDT JOBE: I putted better. Yesterday I actually played all right, I just putted terrible, so the whole thing is you've got to make putts to make birdies. Made a few more today. Hit it pretty good yesterday, hit it pretty good today, a couple still. You're always working, never ending, right?

Q. You guys are working really hard right now, too. The field is so deep, like you just heard Goydos holed out on 18, everybody is really talented going into the Playoffs here.

BRANDT JOBE: You're right, you're right, so it's going to take a little extra. It's kind of like right now we're grinding. I think everybody's tired. It's the end of the year, it's football season. I've got to watch the games. I think everyone -- this is kind of the final push, right? So just grind it out for three weeks and see what happens, hang your hat and be proud of yourself when you finish up.

Q. Did you have a number in mind when you started the day?

BRANDT JOBE: No, no. I mean, I thought, hey, for me to even get in it, I've got to shoot at least 5. Probably today 8, 9 under, 10 under's going to be leading, so I'm going to have to go out and do something great tomorrow. But the good thing is if I go out and play decent, play a good round tomorrow, I could at least have a high finish and give myself a chance to keep moving forward. But for me, I need two out of three wins probably and a real high finish, so I'm just going to make this my high finish. That's the plan.
