

**PNC Father/Son Challenge
Final Round Interviews
Dec. 16, 2018**

**Davis Love III
Dru Love**

Congratulations on your second Father/Son victory, how does it feel?

David Love III: That feels great. We've come close several times, he's been very competitive this week, after a slow start yesterday it's nice to get it going and get another win. He carried me all the way through this one, he played great. It was fun to watch him hit so many good shots and make so many putts, I didn't have to putt much today, which was nice.

Were you aware that you were heading towards a tournament record score?

David Love III: I knew we were going low but I knew we had to. I knew we needed at least 14 under to have a chance. I just said, let's try and hole every wedge shot and eagle every hole like we're behind. I tried to get him to not look at the leaderboard on 18 but he had to do it. I was still putting thinking we needed to make it but I guess he already knew what was going on. We knew we were in good position, when Bones shows u, you know you're in the lead group. So I figured we just need to keep the hammer down.

Coming in to this event, everyone was calling you there favorites, were you aware of that?

Davis Love III: Yeah, the Kite's reminded us on Tuesday on the range. I think there's been a lot of years we've been one of the teams to beat, we got in a playoff one year and obviously won it too, if Drew plays to his ability and I ought to be able to help him and be competitive every year. It's unfortunate he didn't get through Q school this year and who knows, this might be our last time playing so it was fun to finish it off.

On that note, Dru, you played on the PGA Tour last month, what's the status of your game right now?

Dru Love: It feels good, I'm just trying to learn how to play. I am pretty inexperienced, I didn't play much in college so all these tournaments I've been playing, I've been playing catch up against the guys like Justin and Jordan that are close to my age, they've played far more golf than I have. I'm trying to play any tournament I can get in to, anywhere in the world so I'm just happy to play golf, I love it. I'm just trying to get better every week and things are starting to click. This last year and a half has been a challenge but it's been very fun. It's all I've wanted to do. My dad said let's finish this one off because hopefully it's our last one. We love this tournament so much, it means the world to us, our whole family is here. I'm hoping my sister can start practicing so I can come back and caddie for her.

What does it mean to win with your Dad?

Dru Love: We've been playing against each other so much recently so even then on the last hole I found myself telling him my ball was waving by his on the way by. We're super competitive and it's great to be

on the same team. Watching his composure, watching him hit shots at the flag on the back nine was cool to see, winning a tournament with our Dad is more special than trying to beat him.

What about you Davis, what does this mean?

Davis Love III: It's a fun week all around, it's hard to say what was more fun or sea world with my daughter last night. It's just a great event. I wanted to go out today and have some fun, he played great in the pro ams, so I figured he was going to play like this one day. It's fun to watch him play and get better and better.

Davis where would you put this against your recent win at Wydham

David Love III: It's more special wining with your son.
