

**ROUND 2 INTERVIEW**  
**May 18, 2018**

**JERRY KELLY ( -9)**

---

**Q. Just kind of talk about this round here and what do you walk away from this round with?**

**JERRY KELLY:** I didn't hit it as well as yesterday and had a couple short-side mistakes, got most of them up and down. Put one in the water, couldn't get that one up and down. So a fairly good round, just couldn't get anything going, couldn't put a string of birdies together or anything. Just treading water a little bit too much for this field.

**Q. Any big changes in the course that was real noticeable or had an impact on your game at all?**

**JERRY KELLY:** Played a little longer today than it did the whole week, and then the wind was up and it was kind of switching back and forth a little bit, so it caught me a couple times. But it's still straightforward, right out in front. If you hit it well, you should be able to hit fairways and greens.

**Q. You're in position to win here.**

**JERRY KELLY:** Yep.

**Q. You've got to finish out strong, though.**

**JERRY KELLY:** Absolutely. I'm happy with four-day events, probably still a little more used to that than the three-day. Found myself pacing myself out there probably a little bit too much because still these guys are used to three days and hitting it hard. So yeah, next couple days, let's get after the birdies.

**Q. Last question, you called the official over there. Can you explain what was going on there?**

**JERRY KELLY:** I put my ball down on the putting green and it rolled two feet closer to the hole after I walked away. I didn't cause the ball to move, so wherever the ball goes, that ball is now in play. If it would have rolled off the green into a bunker, that would have been too bad, too, but it rolled a little closer to the hole and I still didn't get it there.
