

**STEVE STRICKER (-1)**

---

**Q. Obviously not the day you wanted. Just reflections on the week?**

**STEVE STRICKER:** Yeah, we got off to a good start today. Just made too many mistakes again. Didn't make too many putts when I did have some opportunities, and you've got to have all parts of your game working here. It's a great course. It was set up tough, but a great week. You know, I mean to get back in the mix of it again, it was fun. And I didn't play that well really after the first day. It was a grind.

**Q. Right. What was it, do you think?**

**STEVE STRICKER:** It was a little bit of everything. I didn't drive it that well like the second and third rounds, and then didn't really hit very good irons at times. Just a little bit of everything. But I hung in there. I was grinding and trying to claw and scratch my way in, but it wasn't meant to be.

**Q. Kind of jumbled up there a lot throughout the day. Do you watch the leaderboards a bit?**

**STEVE STRICKER:** Yeah, yeah. Knew exactly where I was and what I needed to do really. I had a really good look at birdie on nine and 10 and 11 and don't make any of them, where if I could have got some of those to go, maybe some momentum would have got on my side. But just never could get any putts to go or any momentum going.

**Q. Are you surprised, especially after the performance at Regions and Senior Open and the 64 on Thursday, to kind of stall out a little bit?**

**STEVE STRICKER:** Yeah, it is disappointing, but I'm tired, too. I've played a lot of golf for me. This is like 16 for me, I think, in a shorter period of time, too. I'm a little worn out, but no excuse. Yeah, after the first round here I just had intentions to keep going and just keep putting the pedal down and I just couldn't do it.

**Q. I know right now you just want to go shut it down for a little bit. What are your plans? Back to the PGA TOUR for Wyndham, I assume?**

**STEVE STRICKER:** Yeah, I think I'm going to go play Wyndham. So got a couple weeks off, go play Wyndham and then see how that goes.
