Today – Strong easterlies will again be in place today but are expected to be slightly weaker compared to Thursday and Friday. Sustained winds will generally be in the 20-25 mph range with gusts occasionally exceeding 30 mph. Passing showers are also going to remain possible throughout the day. While these showers will be brief, they could produce heavy downpours. Lightning is not expected with this activity. Rainfall: Less than 0.10". **Sunrise: 6:47am / Sunset: 5:34pm**

Extended Forecast – Easterly flow will persist through early next week, however it will be weakening over the next several days. Sustained winds of 18-24 mph are expected through Monday with gusts up to 30 mph at times. Winds should fall below 20 mph by Wednesday. Showers remain possible every day in this pattern, but any activity likely is brief and isolated in nature. Temperatures should remain in the 70s throughout the week.
