Friday, June 19, 2020

Friday	8am	10am	12pm	2pm	5pm	8pm
Sky						
Weather	Partly Cloudy	Mix of Sun and Clouds	Shower Possible	Isolated T-storms	Scattered T-storms	Scattered T-storms
Rain Probability	0%	10%	15%	20%	40%	50%
Lightning Probability	0%	0%	0%	20%	40%	40%
Temp (F)	73	79	83	85	84	77
Winds (mph)	Light & Variable	Light & Variable	Var → E 6-12	E 6-12	E 6-12 G15	E → SE 6-12

Today – Mainly dry conditions are expected this morning with increasing cloud coverage. The highest rain chances today are expected from the late-afternoon through the early evening. Slow-moving showers and thunderstorms may lead to locally heavy rainfall.

Rainfall: 0.10-0.20", with locally higher amounts expected in thunderstorms

Sunrise: 6:25am / Sunset: 8:29pm

Saturday	8am	10am	12pm	2pm	5pm	8pm
Sky						
Weather	Partly Cloudy	Partly Cloudy	Partly Cloudy	Isolated T-storms	Scattered T-storms	Scattered T-storms
Rain Probability	0%	0%	0%	30%	40%	40%
Lightning Probability	0%	0%	0%	20%	40%	30%
Temp (F)	73	79	84	87	86	79
Winds (mph)	Light & Variable	Light & Variable	Var → E 5-10	E 6-12	E → SE 6-12 G15	SE 6-12 G15

Saturday – Thunderstorms are expected again Saturday, developing west of King & Bear after 2pm along the Atlantic sea breeze. There is a slight threat that the Atlantic sea breeze does not make it as far inland Saturday, which would allow storms to develop relatively closer to King & Bear. Steering winds are expected to gradually nudge these storms east, near the vicinity of King & Bear after 3pm. Slow-moving showers and thunderstorms may lead to locally heavy rainfall.

Rainfall: 0.10-0.20", with locally higher amounts expected in thunderstorms

Sunrise: 6:25am / Sunset: 8:30pm
