Today – A disturbance near the Gulf Coast this morning will approach the area later today. Most of the day will see a mix of clouds and sun with dry conditions. Shower and storm activity likely remains to our south and east over the next 24 hours, however there is low potential this activity approaches the area after 4pm this afternoon. Temperatures should reach the upper 90s this afternoon with lighter winds compared to previous days. **Sunrise: 6:44am / Sunset: 8:34pm**

Tomorrow – With an upper level disturbance overhead and moist southerly flow in place, drizzle and/or spotty showers are possible Saturday morning. Saturday afternoon favors dry conditions, although there is a low threat for a shower/storm, mainly to our south and east. Temperatures will be cooler, reaching the middle 90s during the afternoon. South to southeast winds are expected with gusts of 15-20 mph.

Forecast prepared by meteorologist Kyle Koval.
