Winds (mph)	E 7-14	E 10-20	E 15-25	E 15-25	E 15-25	E 10-20

**Today** – Passing showers are a possibility through mid-morning, with largely dry conditions taking over for from late morning through the early afternoon. After 3-4pm expect showers developing over the Virgin Islands to pass through at times, though a majority of the late afternoon will be dry as well. Easterly winds may reach speeds up to 25 mph this afternoon. The temperature is forecast to reach a high near 82F.

**Rainfall through 6pm: Less than 0.10"**

**Sunrise: 6:48am / Sunset: 6:26pm**

Day	Tonight	Fri	Fri night	Sat	Sun
Sky					
Weather	Scattered showers	Scattered AM showers becoming isolated	Partly cloudy; isolated showers	Few showers possible	PM showers possible

Temp (min/max)	Low: 73F	73/82	73/82	73/83	73/82
Winds (mph)	E 10-15 G20	E 10-15 G20	E/SE 10-15	SE 6-12	Variable 5-10

**Extended forecast** – Showers will remain a possibility on Friday and Saturday, but a drying trend should keep the coverage fairly sparse – especially Friday afternoon through Saturday. Moisture levels are expected to slowly increase on Sunday ahead of an approaching cold front, with pop-up showers forecast to develop during the afternoon hours.

Forecast prepared by meteorologist Joe Halvorson.
