Winds (mph)	Light & Variable	NE → E 5-10	NE → E/SE 6-12	NE → SE 6-12 G15	SE 7-14 G18

Extended Forecast – Patchy fog could develop tonight, although the higher threat is farther outside the city limits. Any clouds will dissipate Friday morning with mild and sunny conditions for the afternoon. Some moisture will begin to return this weekend, but the only real impact appears to be increased cloud cover. Winds will favor a northeast to southeast wind direction through the weekend with speeds generally under 12 mph.

Forecast prepared by meteorologist Kyle Koval.
