

John Deere Classic 6AM Weather Forecast Thursday, July 8, 2021

Time	7am	9am	11am	1pm	3pm	5pm
Sky						
Weather	Areas of mist possible	Cloudy	Cloudy	Mostly cloudy	Mostly cloudy	Partly Cloudy
Rain Probability	20%	10%	0%	0%	0%	10%
Lightning Probability	0%	0%	0%	0%	0%	0%
Temp (F)	65	67	69	71	73	74
Winds (mph)	N 10-15	N 10-15	N 7-14	N 6-12	NNE 5-10	NNE 5-10

Today – Areas of mist will be possible to start the first round. Otherwise, cloudy skies will hang tough over the region through the morning hours. The strong July sun should help burn some of away allowing for mostly cloudy/partly sunny skies to return this afternoon. Temperatures will be much cooler with temperatures holding the 60s through the morning before warming into the 70s this afternoon.

Sunrise: 535am / Sunset: 837pm

Day	Fri	Sat	Sun	Mon
Sky				
Weather	Showers and t-storms likely	Showers and isolated t-storms likely	A chance of showers and isolated t-storms	Chance of showers and t-storms
Rain Probability	60%	70%	50%	40%
Rain Amount (in)	0.30-0.60"	0.50-1.00"	0.50-0.75"	0.20-0.30"
Temp (min/max)	62/79	64/76	64/77	63/79
Winds (mph)	E→SE 6-12	ESE 10-15	NE 10-15 G20	S 10-15

Extended Forecast – A warm front will lift north into the region ahead of a low-pressure system and act as a conveyor belt for showers and thunderstorms on Friday, especially late in the day into Friday night. This area of low-pressure is expected to slowly move across the Midwest, keeping areas of rain and isolated thunderstorms over the region into early next week. Depending on where the low pressure is located will make a big difference in the coverage of rain showers across the area. Heavy rainfall will be likely, depending on where the stronger rain bands set up.

Forecast prepared by meteorologist Stewart Williams.
