Today – A quick-moving, heavy band of showers is expected to arrive around 7am but will likely only last for 5-10 minutes. Scattered showers will slowly decrease in coverage through the morning hours, producing brief heavy downpours if they move over the course. A relative lull in the coverage of showers is expected for much of the afternoon before chances slowly rise toward the end of the round. Otherwise expect mixed to partly cloudy skies with a high temperature near 82 degrees. Windy conditions will persist throughout the day commonly gusting between 25-30 mph with a few higher peak gusts between 30-35 mph.

Rainfall through 6pm Saturday: Less than 0.25"

Sunrise: 6:43am / Sunset: 6:29pm

Tonight/Tomorrow – Showers are anticipated to increase in coverage overnight into early Sunday morning, likely producing several rounds of fast-moving heavy downpours. Expect scattered activity to continue into Sunday morning. A few showers will remain possible Sunday afternoon, but the coverage will be diminished. East-northeasterly winds will remain blustery, commonly gusting between 25-30 mph with peak gusts of 30-35 mph.

Rainfall 6pm Saturday through 6am Sunday: 0.25" – 0.50"

Rainfall 6am Sunday through 6pm Sunday: 0.15" – 0.30"
