Winds (mph)	E 4-8	E 4-8	NNW 4-8	NW 4-8	NE 4-8	ENE 3-6

Today – Sunny skies will become partly cloudy this afternoon with highs warming into the upper 80s. The humidity will remain low keeping the comfortable conditions over the region. The wind will remain light today averaging 4-8 mph. Clouds will be on the increase this evening as upper-level energy approaches from the west.

Sunrise: 611am / Sunset: 758pm

Day	Fri	Sat	Sun	Mon

Rain Probability	10%	20%	20%	25%
Rain Amount (in)	0.00"	0.00"	0.00"	0.05"
Temp (min/max)	71/90	72/92	75/94	76/95
Winds (mph)	E→SW 4-8	SSW 4-8	SW 7-14	SW 10-15

Extended Forecast – Upper-level energy passing overhead will provide mostly cloudy skies Friday morning. Otherwise, skies will become partly cloudy during the afternoon with highs around 90 degrees. The heat and humidity returns this weekend pushing the heat index values into the mid to upper 90s Saturday and around 100F Sunday. Cannot rule out an isolated shower or thunderstorm developing over the weekend, but most locations will remain rain-free. A few thunderstorms will be possible Monday with highs in the mid 90s with the heat index making it feel more like 105F during the afternoon.

Forecast prepared by meteorologist Stewart Williams.
