Today – There will be increasing chances for showers and thunderstorms this morning as a disturbance approaches from the north. Greatest chance for rain and isolated thunderstorms will be late morning through early afternoon. Rainfall less than 0.25” is expected. Skies become mostly cloudy later in the day with temperatures topping out near 85F and southerly winds as high as 8-14 mph late in the round.

Sunrise - 5:43 am / Sunset: 8:26 pm

Weather	Scattered Showers and Thunderstorms	Isolated Showers and Thunderstorms Possible	Scattered Showers and Thunderstorms
Rain Probability	60%	30%	60%
Rain Amount (in)	0.05-0.20”	Trace-0.10”	0.40-0.80”
Temp (min/max)	71	71/90	69/82
Winds (mph)	S 10-15	SW 10-15	SW 10-15

Extended Forecast – Scattered showers and thunderstorms redevelop in the area tonight. The potential for thunderstorms will be lower on Saturday but, with the building heat and humidity, a few pop up storms remain possible. Rain and thunderstorms become more likely on Sunday as a low pressure system slowly meanders across central Illinois. Light winds continue into Friday and then pick up to 10-15 mph at times out of the southwest for the weekend.
