Lightning Probability	0%	0%	0%	5%	5%	10%
Temp (F)	72	75	77	78	77	76
Winds (mph)	S/SE 8-14	S/SE 8-14 G18	S 8-14 G20	S/SW 10-15 G22	S/SW 10-15 G22	S/SW 8-14 G20

Today – A front will approach the northern Bahamas by this evening with most of the precipitation holding off until after 6pm. Regardless, a chance of a shower exists before 11am and again after 2pm. Southerly winds will increase, especially by late morning, with gusts of 15-20 mph possible. Temperatures are expected to reach the upper 70s. Forecast rainfall: Less than 0.10". **Sunrise: 6:55am / Sunset: 5:46pm**

Winds (mph)	SW 8-14 G18	W/SW 8-14	W/NW 6-12	N/NW 6-12	N/NW 6-12	N 6-12

Tomorrow – A front will be draped across Abaco Thursday morning with areas of showers/T-storms ongoing. This front should slowly sink southward, possibly clearing the golf course by the afternoon. A slower frontal passage would keep higher shower/T-storm chance going into the afternoon hours. Southwest winds will be gusty ahead of the front but will diminish and shift to the north after frontal passage. Forecast rainfall: 0.25-0.50". **Sunrise: 6:55am / Sunset: 5:46pm**
