Temp (°F)	79	86	90	94	96	94
Winds (mph)	S 7-12	S 8-13 G15	S 10-15 G18	S 12-16 G22	S 13-17 G23	S 12-16 G22

Today – Broken cloud cover pushing in from the northwest will gradually erode this morning, becoming sunny to mostly sunny for the afternoon. Hot and dry conditions are forecast through the final round, with temperatures peaking in the mid-90s. Southerly winds will increase to 10-17 mph in the afternoon, with gusts of 18-23 mph after 1-2pm. A few thunderstorms may become possible overnight.

Sunrise: 6:27am / Sunset: 8:20pm

Tonight/Monday	10pm	2am	6am	10am	2pm	6pm
Sky						
Weather	Isolated T-storms	Few T-storms possible	Mixed skies	Mix of sun and clouds	Partly cloudy	Partly cloudy
Rain Probability	20%	30%	10%	0%	0%	0%
Lightning Probability	20%	30%	10%	0%	0%	0%
Temp (°F)	81	75	71	78	86	88
Winds (mph)	S 10-15	N/NE 8-13	E/NE 8-13	NE 10-15 G20	E/NE 12-17 G22	E 10-15 G20

Tonight/tomorrow – A few thunderstorms are possible overnight as a weakening complex drifts southward out of Oklahoma. Expect the highest chances will occur between 1-4am before this activity slides off to the south and east. Should the McKinney area get hit by a cell or two overnight expect that rainfall of 0.10" to 0.25" would occur. Additionally, an isolated strong thunderstorm wind gust of 30-40 mph will be possible overnight. Monday will see a mix of sun and clouds gradually become partly cloudy. Breezy east-northeasterly winds are expected to arrive by 10am. The temperature will reach a high in the upper 80s.

Sunrise: 6:27am / Sunset: 8:21pm
