## Kapalua Golf's Plantation Course Celebrates 30-Year Anniversary

2022 marks the 30<sup>th</sup> anniversary of Kapalua Golf's Plantation Course as the iconic Bill Coore and Ben Crenshaw design first opened for play in 1992. Designed on a grand scale, the 7,596-yard, par 73 Plantation Course plays along the slopes of the West Maui Mountains boasting dramatic ocean views from virtually every hole.

The perennial Top 100 Course underwent a well-documented restoration in 2019 which focused on recapturing the essence and playing characteristics of the (then) nearly three decade-old course. During the 2019 restoration/refinement project, enhancements were made to the Plantation Course, including new bunkers; new Celebration Bermuda Turf on tees, fairways and roughs; and rebuilt and resurfaced green complexes. The overall Plantation Course layout and routing remained the same.

Throughout 2020 and 2021, additional projects have been completed to produce what Coore and Crenshaw originally planned during their 2019 refinement of the Plantation Course – namely to make the golf course firmer to get more ball roll. The drainage and top dressing projects, as well as enhanced maintenance practices, have “firmed-up” the golf course to where returning PGA TOUR professionals playing in the 2022 Sentry Tournament of Champions will certainly notice a difference in how the course plays – and how the ball rolls – compared to 2020 and 2021. Over the last 12 months, daily-fee guests playing the Plantation Course have experienced these firmer conditions as golf balls disappear then reappear among the contours of the fairways and greens, adding exciting moments to an already unforgettable round.

As Bill Coore explained following the 2019 refinement, “The top priority was to try to get the firmness and the bounce and the roll of the ball back into how the course played, certainly with tee shots, but far more importantly with the approach areas leading to the greens. We wanted golfers to have the ability to land the ball short of the green and allow it to bound onto the green, particularly on the long, downhill, downwind par-4s, like 1, 7 and 17.”

“The Plantation Course is a living, breathing organism that is changing every day, so our work to improve it will never be complete,” said Alex Nakajima, general manager, Kapalua Golf & Tennis. “Mahalo to Kapalua Golf's Director of Agronomy Andrew Rebman and his team for their incredible efforts in helping to make Mr. Coore and Mr. Crenshaw's vision for the Plantation Course a reality.”

Irrigation, drainage and maintenance projects completed on the Plantation Course in 2020 and 2021 include:

- The irrigation main line on the back nine was replaced and pressure regulator valves were upgraded.
- In 2020, 3.5 total miles of drainage pipe was installed on approaches on holes 1, 2, 3, 4, 5, 7, 9, 10, 11, 12, 13, 14, 15, 16, 17 and 18.
- In 2021, an additional half mile of drainage was installed behind 11 green and on the left side of No. 1 fairway.
- The drainage line on hole 6 was replaced with a new channel drainage, and new drainage was installed right of 17 tee.
- All approaches were top-dressed with 60 tons per acre of sand.
- Kapalua Golf's agronomy team has also increased cultural practices on greens via brushing
- 100 yards of cart path has been replaced.
- The nursery green was re-grassed with 14,000 sq. ft. of TifEagle Bermudagrass.

To commemorate the 30<sup>th</sup> anniversary of the Plantation Course, Kapalua Golf has commissioned famed artist Graeme Baxter to record its iconic 18<sup>th</sup> hole on canvas, with the painting being unveiled during the 2022 Sentry Tournament of Champions. The club is offering 30 limited-edition, 20 x 37 canvas giclées, which will be signed and numbered by the artist. Baxter has been official artist to some of the world's foremost golf tournaments, such as the Ryder Cup, the Open Championship, and the Presidents Cup, as well as artist to the PGA TOUR and European Tour. His work is displayed in clubhouses at St. Andrews, Augusta National and Pebble Beach.
