Extended forecast – An isolated passing shower cannot be ruled out amid the easterly flow Saturday afternoon, otherwise expect dry conditions to continue. A pop-up afternoon shower may occur on Sunday ahead of a weak frontal boundary approaching from the north – but expect any rainfall will hold below 0.05" with no thunderstorms forecast to occur. A few additional afternoon showers are possible on Monday afternoon as the boundary passes through, potentially bringing 0.07" – 0.15" of rainfall.
