

## SATURDAY, JUNE 18, 2022 - 5 AM WEATHER FORECAST

The dry air has arrived via overnight shipping, and the chilly northwest breeze is out for a mid-morning delivery between 8 and 9 AM. A pulse of wind gusts will accompany the chilly air's arrival, dropping the air into the low 60s for the first tee time. Despite the consistent northwest breeze gusting to around 20 mph at times, temperatures slowly climb their way toward 70 degrees this afternoon as occasional beams of sunshine break out during the middle of the day. Cloud cover will increase as the afternoon wears on due to a lobe of upper-level moisture swiveling our way from the north that will provide a chance for light showers to develop after sunset. Overnight the scattered rain showers combined with a low of 50 degrees will make it feel more like Autumn in New England than the middle of the Summer. Rain showers taper off heading into Sunday afternoon, but an overhead cloud deck will keep temperatures in the 60s for our coolest day yet.
