**Extended forecast** – Lighter winds are forecast on Saturday, although a few gusts to 15 mph may occur after 4pm. Breezy south-southeasterly winds return after 12pm Sunday, with winds becoming sustained at 10-15 mph along with gusts of 18-20 mph. An isolated shower cannot be ruled out between 4-10am Saturday as a weak frontal boundary and upper-level disturbance passes north of the area – otherwise expect dry conditions through the weekend. Temperatures top out in the 80s each day.
