Weather	Showers likely; few heavy	Intermittent showers; few heavy	Partly cloudy; iso. shower	Partly cloudy; iso. shower	Partly cloudy; iso. shower	Partly cloudy; iso. shower
Rain Probability	70%	50%	20%	20%	25%	25%
Lightning Probability	0%	0%	0%	0%	0%	0%
Temp (F)	73	75	77	78	78	76
Winds (mph)	SE 14-18 G22	SE 14-18 G22	SE 15-20 G25	S/SE 15-20 G25	S/SE 14-18 G22	S 12-16 G20

**Today** – Moisture from the remnants of the frontal boundary that passed through Monday evening is lifting back northward this morning and will bring a round of showers to start the day – some of which will produce pockets of heavy rain. Activity should become more intermittent by mid-morning before turning isolated in coverage this afternoon as this area of elevated moisture lifts north of Great Abaco. Breezy southeasterly winds will turn south-southeasterly this afternoon, sustained at 14-20 mph with gusts in the 20-25 mph range. The temperature will top out in the upper 70s.

**Forecast rainfall: Less than 0.25"**

**Sunrise: 6:56am / Sunset: 5:45pm**

Thursday	6am	9am	12pm	3pm	6pm	9pm
Sky						
Weather	Partly cloudy	Partly cloudy	Partly cloudy	Partly cloudy; iso. shower	Few showers possible	Few showers possible
Rain Probability	5%	10%	15%	20%	30%	30%
Lightning Probability	0%	0%	0%	0%	10%	10%
Temp (F)	69	76	80	80	73	70
Winds (mph)	S/SW 5-10	S/SW 7-12	SW 10-15	W/SW 7-12	W/NW 10-15	N 7-12

**Tomorrow** – Partly cloudy with an isolated passing shower becoming possible after 3pm out ahead of a cold front set to pass across Great Abaco Thursday evening. A few showers is expected to accompany this boundary, along with a slim lightning probability of 10% after 6pm. The temperature is forecast to reach a high near 80°F. Southwesterly winds will turn westerly towards sunset. **Sunrise: 6:55am / Sunset: 5:47pm**

Forecast prepared by meteorologist Joe Halvorson.
