Temp (F)	65	68	70	72	70	68
Winds (mph)	N/NE 10-15 G18	N/NE 12-16 G22	N/NE 14-18 G24	N/NE 12-16 G22	N/NE 10-15 G18	N 8-13 G15

Today – Areas of moderate to heavy rain offshore will drift back towards the Georgia coastline this morning. These areas of rain are expected to lose intensity and become more scattered as they approach St. Simons Island – with most of the showers that reach Sea Island Golf Club being of a moderate rainfall intensity. Anticipate that the majority of this activity will pull away from the coast by late morning/midday, with just an isolated shower or two remaining possible into the early afternoon before dry conditions become increasingly likely for the late afternoon/evening. A few thunderstorms are expected to develop offshore later this morning but are likely to remain 25+ miles offshore. Lightning probability will be 5-10% over Sea Island Golf Club where instability will remain limited. **Sunrise: 6:54am / Sunset: 5:26pm | Observed rainfall overnight: 0.05 – 0.10”**
Additional forecast rainfall through 6pm: 0.10 – 0.20”

Day	Saturday AM	Saturday PM	Sunday AM	Sunday PM
Sky				
Weather	Isolated shower prior to 8am then mix of sun/clouds	Partly cloudy to a mix of sun/clouds; iso. shower after 2pm	Mostly sunny	Mostly sunny

Rain Amount (in)	< 0.02”	< 0.02”	0.00”	0.00”
Temp (min/max)	Low: 62°F	High: 75°F	Low: 58°F	High: 72°F
Winds (mph)	NW 7-12	N/NW 5-10	NE 8-13	NE 10-15

Extended forecast – An isolated shower or two will be possible on Saturday prior to 8am and after 2pm due to a weak frontal boundary and upper level disturbance. Any rainfall on Saturday will be limited to a few hundredths of an inch. Dry conditions and mostly sunny skies are in store for Sunday with northeasterly winds of 8-15 mph. Temperatures will reach the mid-70s on Saturday and the low 70s on Sunday.
