**Today** – A more stable pattern has returned to the Yucatan Peninsula which will result in partly cloudy skies throughout the day and a low threat (20-30%) for showers. If any showers develop, it will most likely occur between 12-6pm. While a brief downpour could occur within any shower, this activity will be quick moving. Easterly winds can be expected throughout the day with a few gusts over 15 mph, especially near the beach. Forecast rainfall: Less than 0.10". **Sunrise: 6:51am / Sunset: 6:11pm**
