Today – High pressure breaks down further today allowing the atmosphere to become more unstable as we go through the day. This will lead to the chance for scattered showers and thunderstorms to develop by late afternoon into the early evening hours. Otherwise, partly cloudy skies this morning will become mostly cloudy with highs warming into the mid-80s. A southeast breeze will be light and likely average around 10 mph.

Monday Forecast – A complex of thunderstorms will be possible during the early morning hours that could impact the DFW area if it can hold together. Otherwise, there will be a chance for scattered showers and thunderstorms at some point during the holiday. Temperatures will be slightly cooler with highs in the low 80s due to mostly cloudy skies.
