Today – Tropical moisture over south Florida will promote occasional shower development throughout the day. The period between 10am-4pm should see the highest coverage of showers. Also, it appears the threat for heavy rain and lightning will stay offshore. A northwesterly wind this morning will become northeasterly this afternoon with gusts of 15-20 mph possible. Forecast rainfall: Less than 0.25".

Tomorrow – Moisture levels will remain elevated, especially during the morning hours. Some shower activity will be possible before 1pm, however most of this development likely stays offshore. Otherwise, dry conditions with partly cloudy skies are favored the rest of the afternoon. Northwest winds will switch to the northeast during the afternoon with gusts over 20 mph possible after 2pm. Forecast rainfall: Less than 0.10". **Sunrise: 6:32am / Sunset: 5:35pm (Daylight Saving Time Ends)**
