

SATURDAY, JULY 1st, 2023 - 5 AM U.S. Senior Open Weather Forecast

We are starting out this morning cooler with overnight temps getting down into the low 60s providing a “stickier ” start to things Saturday with dewpoints working their way back up out of the 50s just after sunset last. The humidity will once again be short lived with temperatures warming up into the 70s between 8 - 9 AM while light winds then begin to increase with this surface heating, blowing mainly out of the NW throughout the round while intensity drops slightly from what we have experienced on the course the last two days. These winds at the surface, combined with the zonal flow aloft, will once again have conditions drying out at the surface as dewpoints fall back into the mid 50s over lunch as the final groups begin their third rounds. Temps this afternoon remain on par with the first two days warming into the mid 80s as the leaders are making the turn as wind speeds follow suit, increasing slightly from the morning with averages around 7 mph gusting as high as 15 mph at times. Similar to Friday afternoon, an increase in cloud cover will start building as we get into the late afternoon before once again clearing off overnight.
