Today – Dry conditions continue with slightly more cloudy skies than the last few days. High temperatures reach the upper 80s to near 90 degrees. Winds from the morning into the early afternoon will be variable to out of the east-southeast around 5-10 mph. After 3-4pm winds look to become more westerly, still sustained around 5-10 mph but a few stronger gusts in the 15-20 mph range will be possible.

Winds (mph)	Var-WNW 6-12 G15-20	Var-W 5-10 G15-20	Var-WSW 6-12 G15-20

Extended forecast – Dry conditions are expected throughout the remainder of the week with high temperatures reaching near 90 degrees each day. Through the upcoming mornings and early afternoons, winds look light and variable to slightly out of the east, generally less than 10 mph. From the mid afternoons through the evenings, a sea-breeze/Gulf-breeze moves through the area allowing winds to become more westerly. After winds become more westerly, sustained winds may reach 10-12 mph with common gusts to 15-20 mph.
