Winds (mph)	S/SW → W 4-8	W → NW 8-12 G18	S/SW 6-12	SW 8-12 G18

Extended forecast – A weak front will allow a few showers/T-storms to develop over central Ohio late tonight. This activity will likely shift east of Columbus by 8am Saturday with mostly sunny skies and warm conditions the remainder of the day. Northwest winds could gust over 15 mph. While a very low (15%) chance for rainfall remains warranted on Sunday, the forecast will continue to favor a dry forecast. A much higher threat for showers/T-storms will develop on Monday.
