Extended forecast – Friday will see dry conditions with clouds decreasing by mid-morning. A stray light shower or area of drizzle cannot be ruled out Saturday afternoon. Scattered showers are possible Saturday night through daybreak Sunday, with 0.05–0.10" of rainfall expected. Showers will become isolated from daybreak Sunday through 12pm before precipitation chances slowly increase during the afternoon hours. An additional 0.05–0.10" will be possible from 12–6pm Sunday. Rain is expected to increase Sunday night into Monday, with waves of moderate to heavy rain possible through Wednesday. Rainfall of 2–4" is forecast Sunday night through Wednesday.

Forecast prepared by meteorologist Joe Halvorson.
