Today – Hot and humid once again, with the heat index peaking in the upper 90s this afternoon. Skies will be overcast to partly sunny this morning, with a stray shower possible. Instability will build beneath filtered sunshine, allowing for early afternoon pop-up thunderstorms to grow to a scattered coverage by late afternoon. Towards 6pm anticipate that thunderstorms will become more numerous – with some possibly strong to severe. Damaging thunderstorm winds gusts will be the primary threat from these late afternoon and evening thunderstorms, along with an isolated tornado risk. Southerly winds will become breezy by late morning, increasing into the 12-17 mph range this afternoon with gusts of 20-25 mph.

Forecast rainfall through 8pm: 0.25" – 0.50", locally higher to 1" possible. Sunrise: 5:17am / Sunset: 8:29pm
