Extended Forecast – Mostly cloudy skies will be in place overnight with some isolated fog potential between 4-9am. A slight chance of showers will develop mainly during the PM tomorrow. An increase in showers will develop overnight Saturday through the day Sunday with multiple waves of activity. Heavy downpours will be possible with a low lightning threat. Partly cloudy skies will then be in place on Monday behind the low pressure system. Lows will be in the 60s dropping into the 50s by Monday with highs in the 70s tomorrow dropping into the 60s on Sunday and Monday. The strongest winds of the period are expected don Sunday with gusts around 22 mph.

Forecast prepared by meteorologist Marcus Hustedde.
