**Today** – A chance of an isolated shower/t-storm will be possible at times today, with the first risk this morning after 8am. Additional, scattered activity is possible late in the day, with the highest chances of this after 5pm. Any activity that does develop will move from southwest to northeast. Winds will be light, generally from the northwest but may become variable around any shower activity.

**Rainfall: 0.10-0.20", locally higher.**

**Sunrise: 652am / Sunset: 845pm**
