Winds (mph)	Light & Variable	Light & Variable	Var-E 3-6	Var-E 4-8	Var-E 4-8	Var-E 4-8

Today – Mostly dry conditions prevail today, but there is just enough moisture lingering around that there could be a few brief, isolated showers in the area during the morning and early afternoon. Light and variable winds this morning become easterly this afternoon. Temperatures return to the upper 80s/low 90s with Heat Indices that may briefly exceed 100° between 2-5pm.

Sunrise: 5:40am / Sunset: 8:15pm

Time	7am	10am	1pm	4pm	6pm	8pm

Temp (F)	77	83	89	93	91	87
Winds (mph)	Light & Variable	Light & Variable	Light & Variable	Light & Variable	Light & Variable	Light & Variable

Monday – A weakening complex of thunderstorms from southern Wisconsin works its way into northern Illinois Monday morning. If these storms hold together, there could be periods of heavy rain and lightning through the morning hours. During the afternoon, temperatures climb to the low 90s which will likely cause Heat Indices to exceed 100° during the afternoon and early evening. Light and variable winds are expected throughout the day.

Rainfall: 0.10-0.20"

Sunrise: 5:40am / Sunset: 8:15pm
