Today – An approaching area of showers/t-storms is expected to move into the area after 9am, with the highest chances lingering to early afternoon. Late afternoon and evening will see more dry time with breaks of sun, though some scattered t-storm redevelopment is possible. Winds will generally be light today outside of rain and t-storms. Briefly variable/gusty winds are possible around thunderstorms. Highs reach near 83F this afternoon.

Rainfall: 0.40-1.00", locally 1-2" with storms.

Sunrise: 607am / Sunset: 832pm

Extended forecast – Friday, with a lingering front near the area a chance of a few scattered showers/t-storms remains in the area, highest chances in the morning. Locally heavy rainfall will remain possible with any thunderstorms. Winds will be light from the south. Over the weekend, a drier and warmer trend is expected as the main zone of shower/storm activity is expected to shift more across central/northern Missouri. S/SW winds come up slightly for the weekend.

Forecast prepared by meteorologist Kyle Schanus.
