**Extended Forecast** – Decreasing clouds are expected overnight tonight into tomorrow morning. A weak impulse on the back side of this storm system will provide enough lift for some developing tshowers tomorrow afternoon around and after 3pm. Mixed skies are then expected on Sunday with mostly sunny skies to start off next week. Overnight lows will be in the upper 50s with daytime highs in the mid to upper 70s. Saturday will have the strongest winds with gusts up around 22 mph, otherwise light and variable winds are generally expected through the period.
