Monday Forecast – A cold front will produce showers and a few thunderstorms across the area between 7AM-1PM before shifting east. This will likely produce 0.25"-0.50" of rain through the first half of the day. Drier conditions will return by early afternoon with skies becoming partly cloudy. It will be windy out of the SW and W 15-20 gusting to 30 mph at times.

Forecast prepared by meteorologist Stewart Williams.
