Temp (min/max)	64/87	67/86	69/86
Winds (mph)	ESE 10-15	E→SE 10-15	E→SE 5-10

Extended forecast – Saturday will remain dry with mostly sunny skies and becoming a little more humid in the afternoon making for another nice day. Humidity/moisture from the gulf increases further over the area Sunday into Monday. This will likely produce scattered showers during the afternoon into the evening on Sunday, especially to the south of Jackson. A better chance for scattered showers and thunderstorms can be expected Monday as an upper-level low-pressure system moves closer to the region.

Forecast prepared by meteorologist Stewart Williams.
