Question: Nice start?

Mike Weir Answer:

Yeah, yeah, very happy with that start. You know, it hasn't gone great so far this year. It's nice to be off to a great start today. It feels better. Today I played really nice, hit some nice putts.

Question: The course conditions when you guys get back out there, I mean, what was that like?

Mike Weir Answer:

Yeah. I mean, a lot of rain. You know, pretty much, if you got your number right, you could fly right to the hole - actually thought they might be a little bit slower, but they were still good speed and got me on 16 a little bit, 3-putted from short range. But other than that, I played great, putted great.

Question: What has been working, Mike? You're the one who said it; you know, it's been a rough year.

Mike Weir Answer:

Yeah. I mean, I — you know, I haven't — I haven't putted very well at all. And I made some adjustments this week. And, yeah, so far it seems to be pretty good. But overall everything in my game is working today; so that's a good sign.

Question: What did you make? What adjustments?

Mike Weir Answer:

Well, I got a little bit closer to the ball, a little bit taller, you know, tried to get, you know — at the start of this year I tried, you know, a different — the Conventional grip, I tried Cross-hand, I tried the Claw a little bit, and nothing seems to be working very well. So I just went back to traditional and changed it up a little bit, got a little closer to it. And I'm seeing the line a little better.
