Today – Today is shaping up to be an active weather day as a cold front drops south across Texas this afternoon. Scattered thunderstorms are forecast to develop as early as noon with chances increasing through the afternoon. Severe weather is possible today with damaging winds and large hail being the primary threats. Thunderstorms are likely this evening and into the overnight hours with total rainfall possibly over 1 inch.

Extended forecast – Overnight thunderstorms should exit the Houston metro by 6am Saturday with dry weather expected for the remainder of the day. Humidity levels will be noticeably lower on Saturday as wind shift to the north. Sunny skies are forecast on Sunday with low humidity, light winds, and seasonal temperatures.

Forecast prepared by meteorologist Wade Stettner.
