Temp (min/max)	56/69	61/68	57/75
Winds (mph)	NE 10-15 G20	NE 15-20 G 30-35	NW 12-15 G25

Extended forecast – Saturday will start the day dry, but showers will be possible by late morning and continue through the afternoon and evening as the low-pressure system strengthens and moves northward. Rain and windy conditions will become likely Saturday night into Sunday with wind gusts to 30-35 mph before the rain becomes more scattered for the afternoon. Conditions will begin to improve Sunday night as the low-pressure system moves to the north.

Forecast prepared by meteorologist Stewart Williams.
